NEWSPAPERARCHIVE®

NEWSPAPERARCHIVE®

Whig and Courier.

Wheeler & Lynde, Proprietors.

THURSDAY, JAN. 10, 1856.

*** For Railroad Steamboat, Stage, Express and Public House Advertisements, see Fourth Page.

*** For County Land notices see First Page.

*** For City of Bangor advertisements see first page.

Governor Wells and the leaders of the new Coalition party have declared themselves in favor of licensing the sale of intoxicating liquors. Now it has been said, and we presume truly, that it is next to impossible in these days to obtain a really *pure* article of liquor—so universal is the practice of adulterating the good qualities, and manufacturing spurious articles, which almost always contain deleterious drugs.

As an evidence of the extent of this practice we cut the following advertisement from one of the most respectable of the New York journals—showing that the manufacture of imitation liquors is a regular and acknowledged branch of business:

To Liquor Dealers.—A fresh supply of green and yellow grape and Cognac oil, one ounce of which is sufficient for two gallons spirits, most natural imitations of Jamaica and St Croix rum, Monongahela and Irish whiskey, gin, port, sherry and claret wines likewise, coloring for all those liquors &c. explicit directions for use N B.—Chemicals, metals and patent medicines on most accommodating terms For sale by Dr. E. PRUCH'S ANGER No 58 Maiden-lane

Is it wise or humane to adopt an open license system, whereby the deadly compounds which are manufactured and sold under the names of spirits and wines will be freely offered to the people. In the view of the case, simply—saying nothing of the danger of an acquired habit of drinking even pure liquor—ought not our legislators to pause before reversing the prohibitory system?—a system which, whatever its enemies may say, *has* banished these destructive beverages from many a community.

Governor Wells recommends the allowance of the manufacture of rum in this State. It is an article which is allowed to be sold by the present Maine Law at the agencies, and is in common use in every family in the State, except those who are so fanatical that they will not use cologne or bleaching in which alcohol is a component part. This rum is purchased in Massachusetts, and is the source of great profit. The profits on the manufacture of new rum, made from the soap molasses which is sent from Portland, being three or four times that of the manufacture of sugar, has been estimated at $8000 in one year. Can any one person give the good work of a reason why the business should be thrown out of the State when its benefits might be enjoyed at home.—*Bangor Journal*

If the editor of the Journal were to live in the vicinity of a distillery for a year or two, he would probably see many shocking instances of his business had better not go on among our people—as they would be dark and terrible shades to many a miserable family. Eight thousand dollars profit to be derived from making sour molasses into rum would be a small consideration for the inevitable woes which would surround such establishments. If new rum must be made, we prefer it should be as far as possible from our people The evils of its manufacture vastly outweigh those benefits which the Journal thinks ought to be "enjoyed at home."

ECLIPSES IN 1856. There will be two eclipses of the sun and two of the moon, this year. A total eclipse of the sun will take place on the 6th of April, and an annular eclipse on the 28th of September, both invisible here. There will be a partial eclipse of the moon of the 20th of April, which will be visible early in the morning, and a similar eclipse on the 13th of October, also visible in the evening.

The bark Occident, which recently went ashore near Portland, is said to have been lost, because the Capt. had not been within reach of the sources announcing the change in the lights on Cape Elizabeth. The notice was very generally given, and nearly a year ago

An excellent article of Molasses is manufactured by Mr Lovejoy, at his establishment on Broad Street. For a mild wear there is nothing more durable and comfortable, especially to persons going into the woods.

REVIVALS IN BUENOS AYRES.—The Rev Mr Caskow, a Missionary preacher at Buenos Ayres, says that with the single exception of a small Scotch church lately completed, there is not one building in the place devoted to the public worship of God.

FREEMAN'S OYSTERS.—We have received a keg of fine oysters from James Freeman, 35 Federal Street, Portland. Mr F is a wholesale dealer in the bivalves, and has fame to be known throughout the State.

SMUG INCOME.—In a late address by Rev Wm. Britton entitled "Cool and Just Views of Trinity Church," it is stated that the *per annual income* of the property belonging to that New York corporation amounts to $64 705

GREAT SALE OF FURNITURE. The advertisement of a great sale of Furniture, at No 3 Union Block, will be noticed. The stock is large and elegant, and is to be closed off at auction Sale commences to-day, (Thursday)

METHODIST MISSIONS.—The Northern Methodist Conference propose the raising of $100 000 for the promotion of the Methodist mission in Ireland.

CATHOLIC PROCRACTED MEETING.—A Catholic protracted meeting was recently held of two weeks' duration, in Buffalo, under the auspices of Bishop Timon

The Law Reporter for January, 1856 is received, and contains a large amount of valuable matter. Crosby, Nichols & Co., Boston, are the publishers.

The Colonization ship for Africa is to be built. A few thousand dollars only are now wanting in the subscription.

Hon E R. Hoar gave the following toast at the Plymouth celebration: "*The Rock of Plymouth*—To the *tyrant*, the *trimmer*, the *time server*—a stone of stumbling and a rock of offence; but to him who will build thereon in the love of liberty and fear of God, a *foundation* broad and strong enough to sustain the fabric of his empire, and to uphold the pillars of his firmament."

Letters from Kansas.

We have the following extract from a private letter received by a gentleman in this city.

GEARY'S ADMINISTRATION, Dec. 3, 14, 5.

I write you, last Sunday proclamation of the was when the ruffians, as they could ascertain, had time the facts in the case. Since that time the war has ended. The troops from the pro- returned last evening, horribly discharged. The ruffians, though, were more than 1000 of them, and armed to the teeth, came to the wise conclusion to go home, their personal safety required them to leave the Territory, which they did, after agreeing never to visit again in a hostile manner. I understand they are now being arrested in Missouri for bringing in to the arsenal at Jefferson City, (after securing the keeper of it,) and the arms to bring here with them. They are three cannon near Lawrence

Governor Shannon left the camp of the Philistines last Sunday, and came over to the side of Israel, where he should have been in the first place. He feels ashamed of himself and the ruffians are "awful wrathy" with him.

On the 16th, the people met to vote for the ratification of the free State Constitution. The war was got up, (no doubt) to defeat the Constitution, but will doubtless have the contrary effect. I expect to leave Kansas a free State, fully organized and I shall help to do it.

I am, &c.

We had our election yesterday to ratify the State Constitution and elect delegates to a State Convention which meets at Lawrence, on the 22d inst, to nominate State officers

If the Constitution is adopted the State election takes place on the 15th of January, at which time a Governor, Lieut Governor, Legislature Secretary of State, Treasurer, Judges, &c &c., will be elected, and on March 4th the Legislature meets.

Kansas is bound to be a free State, and all opposition can not prevent it. Some here who were strong pro slavery men previous to, and during the war, cave in as soon as it was over, and yesterday voted for the Constitution

In spite of '76 previous to an imminent degression among the Yankees in the Territory, and the disbursions are aware of it. They feel exceedingly vexed, and don't know what to do, and every move they make weakens their cause and strengthens that of the Free State party.

A late London paper informs its readers that the Nebraska territory of the United States is a tract of several millions of acres lately purchased by the American from the Mosquito King.

As the softest down is found upon the breast of eagles, so the gentlest affections, the truest kindness should be found in the heart of the truest man. Kindness of heart is ever to be cultivated. It makes the old season welcome in every circle. It sheds its agreeable sight and a genial glow over all the faculties of the mind, moulds the manners into most strongly expressive indwelling of a true and exalted life. No acquirements will compensate for the kindness of a good heart. The drops that fall gently upon the ears are those which fill the ear and open it.

From Central and South America.

NEW YORK, Jan 7 Steamer St Louis from Aspinwall, Dec 27, has arrived. The St Louis sailed from Norfolk Dec 16, for Aspinwall, with a detachment of U S troops destined for Oregon, and reached Aspinwall on the 23d, when the troops were immediately transferred to the Golden Age, and left for Oregon, without accident, all in good health.

The Crescent sailed on the 26th.

The Golden Age would leave on the arrival of the regular mail steamer of the 20th from New York

The Aspinwall Courier notices a rumor of the projected consolidation of the States of Honduras, San Salvador and Nicaragua

Dates to Panama are from Sidney to Oct 1, Valparaiso Nov 30, Callao Dec 10.

Australian advices are of little importance. Galegan Flour was selling at Sidney for 50 shillings

From Chili we learn that a treaty of amity and commerce had been signed with Great Britain at Santiago

Markets at Valparaiso were comparatively dull, owing to limited arrivals. Sugars slightly advanced. Some animation in Flour, owing to exports to Australia; and prices had advanced to 10 75. Copper in demand at 21 50.

Another revolution is brewing in Peru. Arequipa were made daily at Lima. Castilla's rule was fast approaching its end.

THE TREASURY REPORT.—The Treasury report is very dry, being mostly given up to accounts and business details. The Secretary bears hard on the State banks, especially those issuing small notes, intimating that they tend to universal bankruptcy. He foreshadows an excuse for congress on the score of such notes, and ugh as to insure their suppression. He proposes a uniform import of twenty, five or thirty per cent, on iron, steel, and their manufactures, sugar, wines and all fabrics of cotton, wool, silk, flax, or hemp, except cheap, coarse woolens. He proposes that wool and all raw materials for American manufacture shall be admitted free. All other articles than those heretofore named, he would have charged one uniform rate of fifteen or twenty per cent. These he considers, would favor the further development of our home manufactures. And nothing else of much interest in the report.—*Cor. N. Y. Tribune.*

THE POSTMASTER GENERAL'S REPORT, shows a net increase of 862 mail routes during the past year, 24,270 miles in operation on the 30th of November, the total annual transportation of mails 67,491 166 miles; costing $3 845 238.—The railroad service has increased 3,453,132 miles, and the coach and steamboat service has diminished, the first 12½ per cents, and the latter 30 per cent

The expenditure of the department for the year has amounted to $9 968,342 29, and the receipts to $7 342 136 83. The excess of expenditure over receipts $2 626,205 16. Increase of revenue over last year 7 3/8 per cent.

Judge Campbell discountenances the continuance of the large appropriation every year to the Collins steamers. He says they have failed to keep their engagements with Congress, that the allowance paid by the British government for similar services is enough, and that he cannot but regard the continuance of the present increased rate of compensation, which in March, will amount to $ 650,000, as a mere gratuity, destroying all competition on a most important route, and, like all such appropriations, attended by most pernicious influences.

TO TELL GOOD EGGS.—If you desire to be certain that your eggs are good and fresh, put them in water; if the butt turn up they are good; if they turn down they are bad. This is an infallible rule to distinguish a good egg from a bad one. So says an exchange.

HOW THE ENGLISH NATIONAL DEBT ORIGINATED England spent 46 millions of pounds in the Revolutionary war when William of Orange ascended the throne—20 millions thereof had been borrowed.

62 millions were spent in the Spanish war from the 4th of May, 1702, to the 12th of March, 1713; 31½ millions borrowed

5½ millions in the Spanish war from the 23d of October, 1739 to the 30th of April, 1748—28 millions borrowed

112 millions in the war of seven years—60 millions borrowed

136 millions in the American Revolutionary war from 1774, to the peace made in Paris, the 30th of November, 1781—340 millions borrowed

464 millions in the French Revolutionary war from the 1st of February, 1793, to the peace of Amiens, 1802—200 millions borrowed

1336 millions in a war with Bonaparte, from April, 1803, to 18th of June, 1815—388 millions borrowed, and 771 millions raised by taxation.

TRANSPOSITION OF FIGURES.—THE FIGURE NINE The numeral nine has a certain peculiar property, a knowledge of which will be of importance to accountants and cash keepers. It is this: When an error has arisen from any transposition of figures the difference between such transposed number of figures is uniformly a multiple of the numeral nine. For instance, suppose an error occurs in bringing out a trial balance or cash settlement of the amount in question, or that the sum short or over can be divided by nine without any remainder, there is a strong probability that the mistake has been made by transposing figures, at any rate, if such mistake takes place by reason of transposition, the sum in question will divide by nine without remainder. To illustrate this forth er—If 97 has been put down 79 the error will be 18, or twice 9 exactly; if 322 be set down 223 the error will be 99, or eleven times 9; and so on between any transposed numbers. This class of errors is very common

THE HILLOTYPE.—A few years since a great deal was said about a discovery made by a Mr Hill, who resided in some secluded place in Upper Co., of a method of taking daguerreo types with all the natural colors of a landscape, piece or person Some time since the announcement was made that the discovery was after all a failure, and could not be rendered of any practical value But the Saugerties Telegraph states that the indefatigable experimenter has been constantly at work in bringing his new thing to perfection, has at length succeeded, and seems likely to reap a handsome pecuniary reward, in addition to the fame which belongs to the persistent rust. He has already received an offer of $30,000 for the Hillotype, says the Telegraph, provided he will go to Europe and obtain foreign patents. This offer he has declined, deeming it insufficient.

GOLDEN WEDDING.—The fiftieth anniversary of the wedding of Dea Thomas Williams of Merson, Oneida county, was celebrated at the house where the aged couple have resided for half a century since their marriage, on Christmas Represented by five generations were present on the occasion, numbering thirty persons The entire fifth generation was comprised in one little curly headed fellow who lay on his mother's lap and being a short time since three great grandfathers, three great-grandmothers, two grandfathers and two grandmothers The father of Dea Williams was one of the famous "Tea Party," at Boston, in 1773.—*Rochester (N. Y.) Democrat*

MISSIONARY CONFERENCE.—The Calcutta Christian Observer says that it is proposed to hold in that city shortly, a general conference of all the missionaries laboring in the Province of Bengal It is believed that at the time proposed the missionaries of the Baptist and Church Missionary Societies will be visiting Calcutta and the Central Missionary Conference is desirous of gathering all together, that they may enjoy fraternal intercourse and consider the great questions affecting their common work.

The Lynn News tells a good story of two boys, one of whom was boasting of the beauties of his father's house. "All had got a cupola," said he, "and is going to have something else." "What is a cupola?" asked his interested companion. "Why, heard father tell mother this morning that she going to have a *mortgage* on it."

FAILURES.—We learn that the firms of T. A Simpson & Co., clothing dealers and manufacturers, Thatcher Mitchell & Co., dry goods dealers, and Earl & Johnson, clothing dealers, suspended payment yesterday. The aggregate liabilities of these firms will probably reach nearly one million of dollars.—*Boston Times.*

WISTAR'S BALSAM OF WILD CHERRY

I feel it a pleasure and a duty to testify to its merits. My general health at present is as much that for thirteen years past in Boston and elsewhere, are now presented for the consideration of those who will find in a large number of Pictures at small price These resemble Engravings, are not covered, and may be painted in Oil or Water Colors. Small Daguerreotypes may be enlarged by this process to almost any size. This we consider a very valuable consideration, as many persons who have small Pictures of deceased friends would be glad to have them enlarged, so as to be hung in frames upon the wall.

The subscribers have recently secured the services of T. B. *Burnham*, who has been operating in the vicinity, and has collected a large number of specimens of persons in the following towns, viz—Oldtown, Orono, Hampden, Frankfort, Frankfort Marsh, Buckstort, Prospect, Searsport and Belfast, which may be seen at the Main-st room

With the above named arrangement we feel better prepared than ever before to wait upon our friends, and we respectfully solicit a continuance of the patronage which has been so liberally bestowed for the past ten years.

WASHINGTON, 8th.

HOUSE. Mr. Whitney defended the Twelfth Section Philadelphia platform—declaring that the American party was not against individuals but against systems, and against the principles of the Roman Church.

Mr. Knight offered a resolution providing for the election of Speaker by a plurality vote.

Tabled by 11 majority.

The House then proceeded to the 99th vote: Banks 97, Richardson 72, Fuller 33, Pennington 7; necessary for a choice, 108.

During the voting, various gentlemen defined their positions—several frankly endeavoring to draw from Mr. Banks whether he is now a member of the American order.

After some personal explanations between Campbell of Ohio and Giddings, two more ballots were had, the last of which stood Banks 92, Richardson 68, Fuller 28, Pennington 6, scattering 6.

Mr. Galloway read a despatch from the Republican and American Senators in the Ohio Legislature, approving the course of the majority of the Ohio Congressional Delegation.

A desultory debate ensued. House still sitting.

Old Soldiers' Convention.

The Old Soldiers' Convention re-assembled this morning; a resolution was adopted for the appointment of as committee to consist of one from each State, to frame a Constitution for the United Brothers of the War of 1812.

An eloquent address was afterwards delivered by Gen. Satterlee, and Judge Woodward spoke in favor of invalid pensions. The Convention then adjourned, to meet in Washington on the 8th of January next.

Mayor of Pittsburg.

PITTSBURGH, 9th.

Mr Bingham, the American candidate, was elected Mayor to-day, by a plurality vote over the democratic and union candidates.

Sailing of a California Steamer—The Fillibusters off.

NEW YORK, 9th.

The steamer Star of the West left this afternoon, for San Juan. She took out a large number of passengers, many of them, it is said, for Nicaragua only.

Quite a party of fillibusters got off in the Star of the West. Previous to sailing the United States Assistant District Attorney went on board and searched the ship, but let all the passengers go except five who had no tickets. Among these is Capt. Meork, who holds a commission in the filibuster regiment. All of the party were connected with the Northern Light affair, and were under the lead of Councilman Kerrigan, who is under bail for being concerned in that expedition.

Fire at Newport, R. I.

PROVIDENCE, 9th.

The Truro House, at Newport, belonging to Chas Devens, Jr. together with two dwelling houses adjoining, belonging to Hob't D. Coggshall and Mrs Godfrey, were destroyed by fire last night about 11. The Truro House was insured in this city for $10,000.

Another Fatal Railroad Accident.

POUGHKEEPSIE, Jan. 9.

The Express train from Albany for New York, stopped just below here, this afternoon, on account of defect in track, and was run into with great force, by the Poughkeepsie train bound the same way.

Two cars of the former train were demolished and three persons killed. One was Mrs. Green of Utica, the others a young man and woman unknown. Twenty-two others were more or less injured. Several are not expected to recover. Amongst the wounded are Mr and Mrs Roberts and three children, of Albany; Mrs. Campbell of Utica slightly, H. Emmons of Vernon, Oneida Co., slightly.

"The Democratic caucus has resolved that hereafter no motion to adjourn until the Speaker is elected, Stephens, Chairman, Bardgett and two others announced that hereafter they would hold themselves at liberty to vote for a plurality resolution, and that there is an informal understanding that they may do so without any violation of caucus obligations.

Mysteries of the Post Office.

[A Mail Bag's explorations of human life.]

"TEN YEARS AMONG THE

MAIL BAGS,

Or Notes from the Diary of a Special Agent of the Post Office Department,"

By W. J. HOLBROOK.

12mo.,...432 pp....price $1.25.

Beautifully illustrated with 18 Steel Portraits by Ritchie, and 12 Wood Engravings, from designs chiefly by Darley.

This work—undertaken with the sanction of the chief officers of the Post Office Department by a gentleman who has long been and still is one of the Special Agents of that Department—is the first book of the kind ever issued, calculated to give the public an insight into the practical operations of the *Post Office Establishment*, and the almost certain means which skill and experience have furnished for the detection and punishment of offenders against the lawsas vested for the security of the mails and the inviolability of private correspondence.

Never has a volume been offered to the public under a more hearty and universal commendation of that enlightened and powerful engine, the Press. Brief extracts from some of these many flattering notices are annexed:

"The book will prove one of the most interesting of the season, and of lasting interest; a general truth in nature, will form a pleasant addition to our stock of popular light literature."—N. Y. Evening Post.

"We are bound to concede to Mr. Holbrook a narrative of his Post Office experiences the merit of being an exceedingly interesting and suggestive book."—N. Y. Herald.

"The cutest and most entertaining book we have recently seen. Some of Mr Holbrook's tales, unvarnished by him, beat all that our fiction writers, Poe not excepted, have ever written. Mr Holbrook will realize his present success in this and future and more ambitious labors."—Boston Post.

"The work commends itself by the nature of its subject to every person who can read a book or write a letter."—Philad'a Pennsylvanian.

"No more amusing and at the same time engrossing work of its kind, has never been published in America."—Philad'a Bulletin.

"A well written and amusing work, from which we shall make an extract or two for the benefit of the curiously."—Philad'a Sat. Post.

"It abounds with sketches of novel and instructive matter."—Philad'a Inquirer.

"This book is indeed a novelty exceedingly entertaining, and opening a new source of amusement."—Hartford Daily Courant.

"There is substance enough in the incidents, plots, and character contained in his sketches to fill a dozen novels."—Richmond Enquirer.

"No person who has ever allowed himself to ponder for a moment the idea of opening another person's letter, can read the book without the blushing at the frightful prurience of which he has stood New Haven Register.

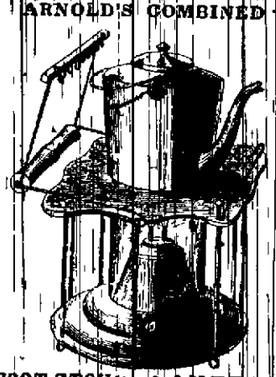
ARNOLD'S COMBINED



FOOT-STOVE, LANTERN, AND NURSE-LAMP

ALBERT NOYES having purchased the exclusive right for manufacturing and selling in Penobscot county the above valuable invention, is now prepared to offer it to the public.

As a FOOT STOVE it is an excellent article for the purpose as it can be sufficiently heated in less than one minute to warm and dry the feet in the coldest winter weather It does not require to be taken from the sleigh while in use in traveling. It is heated by means of oil, or Burning Fluid lamp the flame of which is protected from every external object.

As a LANTERN it answers all the purposes for use, and is less likely to be blown out or broken and can be used as a horse lamp with equal advantage

As a NURSE LAMP and in cases of sickness, it is of great advantage to keep a drink or medicines warm by being placed near the light desired, and for cooking in small quantities For making coffee &c it will be found very convenient as a quart of water can be boiled in five minutes, and a uniform heat in the same length of time

In fact the various purposes to which this neat apparatus can be put may be readily considered by every one Nothing of the kind is required as no one can mistake its general object To say any thing more respecting its advantages would be telling what our readers can see and for themselves
